A close-up image of Sand Travertine, showing a light beige to tan color with a porous, irregular texture and some darker, brownish veins.

SAND
TRAVERTINE

A close-up image of Soft Grey Marble, featuring a dark grey base color with intricate, swirling patterns of lighter grey and white veins.

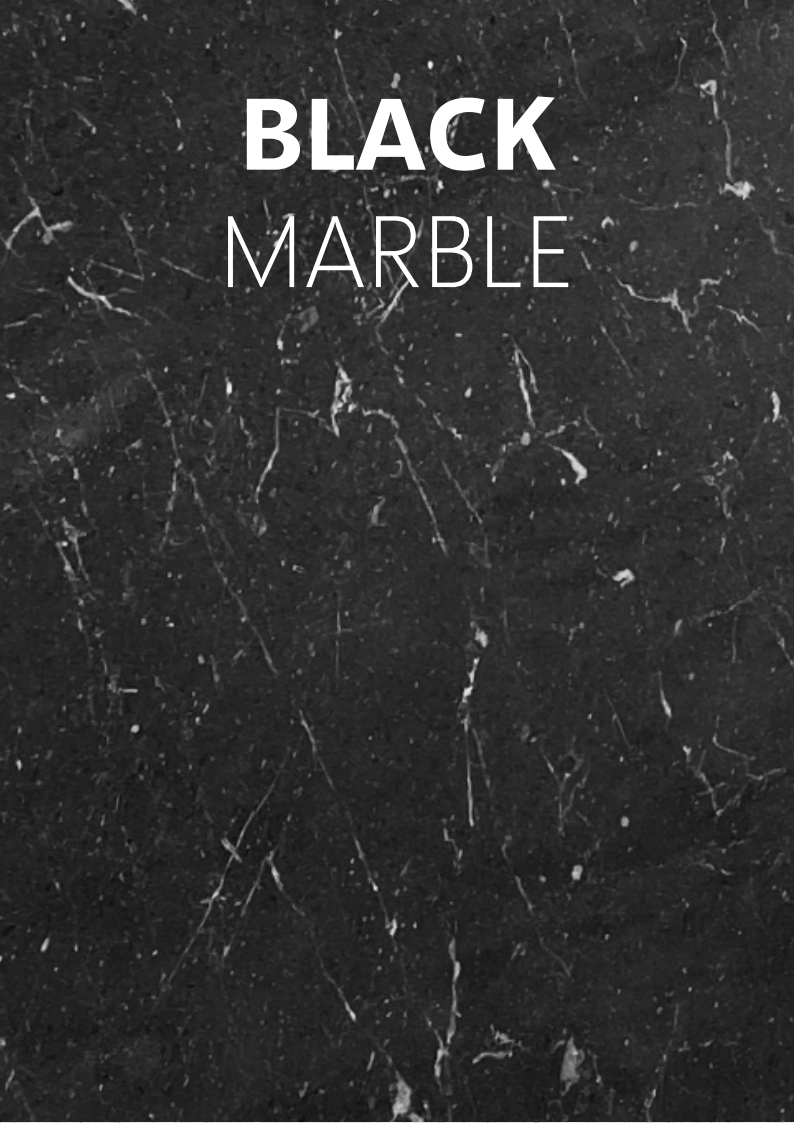

SOFT GREY
MARBLE

A close-up image of Wild Grey Marble, characterized by a dark, almost black base with bold, dramatic veins of light grey and white.

WILD GREY
MARBLE

A close-up image of Sobel Beige Marble, showing a light beige background with large, dark brown and black veins and patches, creating a high-contrast pattern.

SOBEL BEIGE
MARBLE

A close-up image of black marble with intricate, thin white veins running through it.

BLACK
MARBLE

A close-up image of white marble with subtle, wavy grey veins.

WHITE
MARBLE

A close-up image of fossil limestone, showing a light grey surface with small, circular fossil impressions.

FOSSIL
LIMESTONE

A close-up image of fox marble, featuring a rich brown base color with a complex, web-like pattern of lighter brown veins.

FOX
MARBLE
